Expiration Date: 5/1/11

88:162:ab:12675

TO: WORKFORCE DEVELOPMENT COMMUNITY

SUBJECT: CALIFORNIA ECONOMIC RECOVERY–WIA AND WP ACT PROGRAMS
WEB SITE

The American Recovery and Reinvestment Act of 2009 (Recovery Act) was signed into law by President Obama on February 17, 2009, and will provide \$787 billion in economic investment nationally. California is expected to receive \$535.6 million for training and employment services. In an effort to assist the workforce community customers and partners with Recovery Act information affecting the Workforce Investment Act (WIA) and Wagner-Peyser (WP) Act programs, the Workforce Services Branch has launched a new California Economic [Recovery](#) Web page on the Employment Development Department's Web site.

The Web page is intended to provide information on federal and state guidance and provide questions and answers on how the Recovery Act will affect California's training and employment services. Specific questions regarding how the Recovery Act will affect California's employment and training services should be addressed via e-mail to WSBRecovery@edd.ca.gov. Questions will not be answered individually however will be posted on a flow basis, on the [Recovery](#) Web page. Please continue to revisit the [Recovery](#) Web page as it will be updated regularly with new information.

If you have questions concerning the new Recovery Web page, please contact Celia Gallarzo at (916) 654-9767.
